Round 1: Resume Based Shortlisting.

Round 2: Technical + HR (40 min)

- Introduction.
- What is Physical Science what do they teach in it.(AS I Studied in BSc Physical Science.)
- Explanation of every project I had done.
- Are there any projects which are not mentioned in CV.
- Are your projects based on front end or backend.
- Why don't you work on backend.
- What is an API.
- Where do you stay right now, will you able to relocate.
- What are the subjects you are studying.
- If someone is sending you a fishing mail how will you track whether it is a finishing mail or not.
- What is the difference between HTML and CSS.
- You said that you studied maths in your bachelors so which topic of maths is your favourite.
- Imagine that you have 26 constants, labelled a through z. Each constant is assigned a value in the following way:
$$a = 26^1, b=25^2, c = 24^3, \dots, y=2^{25}, z=1^{26}$$

find the exact numerical value to the following equation: $(a-y)(b-y)(c-y)\dots(y-y)(z-y)$.

After that my interview was over then he asked me to ask if I have any questions-

I asked him that what is our role in the company as there wasn't any info provided by company.
