

## **Prateek Sagar (MCA 2020-23)**

### **Faircent Interview Experience (09/NOV/2022)**

**Level:** EASY

**Round 1:** Resume Based Shortlisting

**Round 2:** Technical + HR (30 Minutes)

- Tell me about yourself.
- Tell me about projects mentioned in your resume.
- Then he asked me some basic questions from reactjs because I used reactjs in one of my projects. Questions were like this:
  1. What is reactJS?
  2. Functional component and class component?
  3. What is State?
- Where do you live?
- Can you relocate?
- Do you know anything about faircent? After this he explained me what they really do in faircent.
- Then asked SQL query: find the third highest salary from employee table
- Asked about my family.
- At last, he asked me to solve a puzzle. Puzzle were like this: A lady and a gentleman are wife and husband. We do not know who is older. Someone asked them: Who is older? The wife said: I am older. The husband said: I am younger. At least one of them was lying. Who is older? Ans: husband

He concluded the interview by giving me opportunity to ask any questions.

**RESULT:** SELECTED.

#### **TIPS:**

- Make sure your resume 100% true because they mainly asked from resume and basic questions from technologies used in projects.
- Basic CS fundamentals and basic DSA is enough.
