

INTERVIEW EXPERIENCE-AXTRIA

Varun kumar Mishra – MCA

Total Rounds : 3

Round 1: Online Assessment(90 mins)

- Total number of questions-75
- Questions are asked from Quantitative Aptitude ,Logical Reasoning ,Data Interpretation, Verbal Ability and CS Fundamentals.

Round 2:Technical Interview(30-35 mins)

Interview started with the brief introduction of both of us and then he asked few questions about my role in internship.He was not interested in any technical question and answer rather he wanted to know how i was working in a team and why I was assigned a role of Team Lead during my internship.

It was a healthy discussion between me and the interviewer.At last he asked me if I had any questions for him so I asked about the work culture and how company deals with time zones since they have majority of foreign clients.

Then at last I asked for feedback.

Round 3:HR Round(15 mins)

The interviewer introduced himself and asked me to do so.Then he started to ask behavioural questions like

If you are working in a team and your team lead is on leave .There is one person in your team who don't want anyone to correct him and he is doing some mistake in a project then how will you handle this situation?

Then he asked me why I want to join axtria?.You did development in your project and internship then why you want to be an analyst.

What do you know about axtria?

At last he asked me if I had any questions for him .I asked few questions related to company culture and growth.

Points to Remember:

- Keep your resume 100% true.
- You must know everything mentioned in the resume and can expect any question from it.
- Always listen complete question first then take a pause to frame your answer and then deliver it confidently.
- Keep calm and ask questions at last.
