

## **Adobe Systems India Private Limited**

### **Adobe Systems Inc.**

Adobe revolutionizes how the world engages with ideas and information. For more than two decades, the company's award-winning software and technologies have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people virtually anywhere at anytime. From rich images in print, video, and film to dynamic digital content for a variety of media, the impact of Adobe solutions is evident across industries and felt by anyone who creates, views, and interacts with information. With a reputation for excellence and a portfolio of many of the most respected and recognizable software brands, Adobe is one of the world's largest and most diversified software companies

### **Industry-Defining Adobe® Engagement Platform**

Today, the powerful Adobe Engagement Platform, built around Adobe PDF and Flash technology, greatly enhances how people create, manage, deliver and engage with information. Free Adobe Reader® and Flash Player software—already deployed on hundreds of millions of computers, mobile phones and smart devices worldwide—enable people anywhere to engage, collaborate, and act on information and content, through the web, enterprise applications, online meetings, and digital documents. The Adobe Engagement Platform is enhanced by an extensive network of third-party solution providers developing applications that deliver proven business benefits across a range of industries.

### **Adobe India**

Adobe India was setup in 1998 to provide resources to Adobe's engineering organization. With centers in Noida, which is the largest Software R&D Center for Adobe outside US and a center in Bangalore, the main focus of the India centers is to develop new technologies, new product ideas along with ongoing software development for existing Adobe products
