

# Faircent Interview Experience (2022)

---

**Mohd. Azharuddin**

**MCA(2020-23)**

**Round 1:** Resume Based Shortlisting.

**Round 2:** Technical + HR (40 – 45 min)

- Introduction.
- Explanation of every project I had done.
- Where do you live?
- Can you relocate?
- SQL Query: Find the third highest salary from a table.  
<https://www.geeksforgeeks.org/find-nth-highest-salary-table/>
- Your primary coding language

I said java. After that he starting asking me question related to java and oops like

- What is inheritance?
- What is polymorphism and its type?
- Method overloading vs method overriding
- Can the main method be overloaded?
- How is an infinite loop declared in Java?
- What is constructor overloading?
- What is Copy constructor?
- Is it necessary for a catch block to be followed after try block?
- Is it possible that the finally block will not be executed?

After that we have project discussion on one of my project from resume.

After that my interview was over then he asked me to ask if I have any questions. I asked him that what our role in the company is.
