

## **EValue Serve Interview Experience**

**Round 1 : Aptitude , English , Logical [ No negative marking]**

**Round 2 : Interview [ 2 people]**

**1. Tell me about urself**

**[ They were testing my communication skills ]**

**2. Favourite subjects in PG : OS, DBMS**

**Mam asked :**

**So, I don't know anything about DBMS. Tell me what is DBMS ?**

**SQL queries**

**Joins + types**

**Sir gave me 2 tables and asked me to do left outer join and display the result**

**All the projects and online courses and they can ask anything from your resume.**

**Example : My projects are in JAVA and C++. So they asked whether I'll be able to work with new languages like Python.**

**Ans : Obvio. Yes ! I keep switching languages and**

**I would love to work with new technologies :D**

**3. Why analytics ?**

**4. Code : Some codes related to my project and find whether a given no. is prime or not. [ School time code]**

**They were testing my logic and the way I explained them the code. [ Each and every line . Even the for loop going from 'i to n/2' . Why ? ] Time complexity.**

**Also, they asked if I'm familiar with Tableau or R language.**

**Me : No**

**[ If u don't know , just tell them and say that u'll learn them ]**

**5. Apart from these ques, she asked me to tell something not mentioned in my resume. So , I mentioned about my THOROGOOD experience and she was impressed.**

### **Round 3 : Interview [ Assistant Vice President]**

**His exact words :**

**1. Go through ur resume fatafat !!**

**U just hv to speak fluently..**

**Even if he is speaking in Hindi, u have to communicate in ENGLISH !**

**2. Logical question : [ 2 mins round]**

**Given : Start and end date , find the no. of working days .**

**He said “ Muzhe code ni chaiye..na he calculation..bas logic batao “**

**Then he said “Ok thank u”**

**[ He was testing whether I can think logically and give a smart answer**

**Just don't get nervous..**

**Be confident (Y) ]**

**Analyst profile :**

**They are not looking for coders but the one who has right analytical and logical skills to solve problems .**

**Key skills:**

- **CONFIDENCE**
- **COMMUNICATION SKILLS**
- **PERSONALITY**
