

INTERVIEW EXPERIENCE (EXL)

Name – Nehal Pandey

(Msc. CS 2nd Year)

1st Round- It was an online aptitude test containing questions from reasoning, English and quantitative aptitude.

Next day pre-placement talk was held and the names of shortlisted students were announced.

2nd Round- It was a technical round. Questions from Computer science, in my case N-queens problem ,Knapsack problem ,OOPs were asked .I was asked to define the problem as well as give solutions. Next the interviewer drew a database and asked me 2 queries in mysql. I was able to answer the first one. Then a question on probability and a puzzle was asked. Next he asked me about my projects and whether I know java or not.

After this there has to be another technical round but I was directly selected for HR round.

HR Round- He asked me about myself and the projects I had done. I had done a project in R, HR asked me about that project in detail. Next I was asked general questions like Why EXL? , What are the qualities that makes me different from others and Where do I see myself in next five years? And many more. It lasted for 20-25 mins.

On the same day the list of selected students was announced.
