Cradlepoint interview experience
Sanyam Jain
Msc computer science

There were total 4 rounds
(Online Assessment + Technical Interview + Techno
Managerial Round +HR)

Round 1: Online assessment

Total duration : 1 hr
Total number of questions: 3
Questions were of medium difficulty level
1. To print all the paths of the tree
2. Add one to a vector
3. Beautiful string

Result of this round was declared by the evening and only 5 students were selected after this round (3 from msc and 2 from mca)

Round 2: Technical Interview

Sir first gave his introduction and then asked for mine
After this he directly jumped to dsa ques and gave me coding questions
Ques 1: It was a queue question and was of easy level.
Ques 2: Trapping rain water in a histogram
Ques 3 : Ques was based on string and recursion .It was a hard level problem and it took around 12-15 mins to solve.
Ques 4 : Based on vectors.(he just listened to the approach of this one and discussed the time complexity).

After all these questions he seemed satisfied .Then he asked me if I've any questions.

Round 3 : Techno Managerial Round

In this the VP India of cradlepoint interviewed me.
He was a friendly person and started the interview with my introduction and then asked me what all the subjects I've read till now in msc and then asked me to tell my favorite subject I told him about information security and then he asked me to explain the AES encryption and some cipher techniques. After this he asked me some basic questions on networking and some questions based on project.
This round was 30 minutes long.

Round 4: HR Round

This was a telephonic interview and I got a call from the HR around 8 in the evening.
She first asked me to introduce myself and then asked me how my experience was in the interviews and then asked me about my weakness and strength. After all this he enquired me about my family.this was a 15 minutes call and in the end she asked if i got any questions for her.

 About half an hour later I got a message that I've been selected as a full time employee.

Ps: CGPA plays an important role in some companies. Maintain a decent CGPA. Don't get disheartened if you are not selected. Maybe some better company is waiting for you.
