INTERVIEW EXPERIENCE – EGENCIA

Himanshu Sharma - MCA

Total Rounds : 3

Round 1 : Online Assessment (70 minutes)

There were a total of 23 questions (3 coding questions and 20 java based questions)

Shortlisted students : 16

Round 2: Technical Interview (1 hour)

The interviewer started with a brief introduction of himself and then asked me to introduce myself. Then he told me to explain my projects. Then he started asking questions related to the projects . Then he asked me 2 DSA questions :

1. Find the first occurrence of an element (let's say 1) in an array that consists of only 2 types of value (0,1)
2. https://leetcode.com/problems/intersection-of-multiple-arrays/

I started from a brute force approach and told the optimal approach for both the questions.

Then he asked me if I had any questions, I asked a little about the company and then we bound up the session.

Round 3: Technical and Behavioural Round (1 hour)

The interviewer started with a brief introduction of herself and then asked me to introduce myself. Then she told me to explain my projects. Then she started asking questions related to the projects. Then she asked 2 DSA questions :

1. https://leetcode.com/problems/merge-intervals/
2. https://practice.geeksforgeeks.org/problems/right-view-of-binary-tree/1

I started from a brute force approach and told the optimal approach for both the questions.

Then she asked me if I had any questions, I asked her about the joining experience with egencia and more about the job description and joining process and then we bound up the session.

6 Students were offered a 6M Internship.

Suggestions:

- Keep your resume 100% true.

- Before going to an interview always do a research about the company.

- Never try to outsmart the interviewer, Be Honest with him.

- Be confident while answering the questions.

- Keep calm and have a healthy interaction

All the best!!
