Amantya Interview Experience

Round 1 :

Test 1 (Aptitude)
- Total 3 sections
    1. Qualitative and Quantative Reasoning [12 Ques - 15 min]
    2. Logical Reasoning [12 Ques - 15 min]
    3. English [8 Ques - 10 min]

Test 2 (Language specific - C++/Java)
- For C++, there were 30 MCQs to be done in 60 min.

Round 2 : (Interview)

- The interviewer asked my name.
- What are Templates? - I told him the use and gave a code snippet to support my answer on an online IDE.
- What is the difference between shallow copy and deep copy? - I told him the difference with a code snippet to support my answer on an online IDE.
- What are shared pointers? - I didn't know about it and said the same to sir.
- What are vectors? - Briefly explained and gave its advantage over arrays.
- What are ordered & unordered maps and the difference between them?

Tips :
- Be Confident.
- If you don't know the question, accept it instead of giving the wrong answer.
- Always support your answer with an example or a code snippet even if it wasn't asked to - it gives the interviewer the impression that you know the concept well.
- Keep a smile throughout.
