INTERVIEW EXPERIENCE – AXTRIA

Himanshu Sharma - MCA

Total Rounds: 3

Round 1: Online Assessment (90 mins.) There were a total of 75 questions (Verbal Ability, Quantitative Aptitude, Logical Reasoning, Data Interpretation and CS fundamentals).

Shortlisted students : 21

Round 2: Technical Interview (30-35 mins.) The interviewer started with her brief introduction and asked me to introduce myself. She asked me to explain my projects and asked questions related to the projects (implementations of different features, steps to figure out the bugs in the project etc.) Then she asked some more questions related to the project I was working on at that time, some SQL based questions. In the end she asked me if I have any questions, I asked one and she explained it very well and concluded the interview.

Round 3: HR Round (15 mins.) The interviewer gave a small introduction about herself and asked me to give a short introduction of myself. She asked me to give a short summary of my project. She gave me some situation based questions, asked about my strengths and weakness. Then, she asked if I had any questions, then we both had a little cross question session.

Result: 8 Students were offered intern +FTE at Axtria.

Suggestions:

● Keep your resume 100% true.

● Before going to interview always do a research about the company.

● Never try to outsmart the interviewer, Be Honest with him.

● Be confident while answering the questions.

● Keep calm and have a healthy interaction.
