Yamaha Interview Experience

Amar Kumar
MSc (2020 - 2022)

Round 1:
(Aptitude + Technical)

Number of Questions: 80 (Aptitude – 40, Technical - 40)
Time: 85 minutes.
Aptitude questions are of medium level and Technical questions are of easy level. Technical questions are based on Java and C++ output-based and DBMS, OS questions were there.

Round 2:
HR Interview (15 minutes)

- Tell me about yourself
- Project Discussion
- Family Background
- How many companies visited till now
- Why you did not select in them
- How you handle pressure
- Challenges faced in life
- Ready to relocate

In this round, they will be testing your communication skills and your interest in the company.

Round 3:
Technical Round (1 Hour)

- Introduce yourself and describe your projects.
- Detailed Discussion on the project (intuition, tech stack, future improvements)
- He told me to create a schema of database which I have used in my project and did some cross questions

- Then he moved to DBMS and asked me to write a query for finding Nth salary
- What is a primary key and foreign key
- Can we use VARCHAR attribute as a primary key and what happens when we insert 'NULL' as a string in this attribute
- Delete, Drop and Truncate in DBMS
- What is OOPS (Explained in detail with example codes)
- Difference between abstract class and interfaces
- What is Exceptional handling and what are the keywords used in exceptional handling (Explain with example)
- What is finally keyword in Java
- Write a program of Fibonacci (done using recursion)
- What is recursion (direct and indirect)

In this round Interviewer mainly check your basics. They give more focus to DBMS and OOPS.

Round 4:
CTO Round (15 minutes)

- Introduce yourself
- Project Discussion
- What is Flutter? (Because my project is on Android)
- Why did you do your project independently
- Explain OOPS concepts
- Family background
- Interest and hobbies
- Any offer in hand?
- Ready to relocate?

Tips:

For this company, you have to focus more on Core CS and OOPS. All rounds were elimination rounds (including the CTO round).
Rejections are part of placements.
