INTERVIEW EXPERIENCE - AXTRIA

SALONI DOBHAL- MCA

There were three rounds of the process.

Round 1: Online Assessment
It consisted of 75 aptitude questions. The 75 questions covered 4 sections (English, DI, Aptitude, CS).
To clear the OA, you have to pass in all sections.

Only 3 students cleared this round.

Round 2: Technical Round(30 minutes)
The interviewer asked to introduce myself first and asked very basic questions of all the skills
mentioned in my resume. She asked few basic MySQL queries, different HTML tags, few basic
programming questions, questions on Java and anything I know about Axtria.

All three students were selected for next round.

Round 3: HR Round(15 minutes)
The interviewer introduced himself and asked me to do so. He first asked me about my family.
He then asked me to walk him through my resume. He questioned about my various extra co-
curricular activities I had mentioned in the resume and seemed impressed. Then I asked him some
questions and that was all.

All 3 students were offered Intern+FTE at Axtria.
